

# Diamaster WhisperCut Prismatic Rebate Cutterhead

For V-grooving in Aluminium composite panels

Large production runs, for example, of facade claddings made of Aluminium composite panels, present the manufacturer with repeated challenges in terms of cutting quality and precision.

With the particularly efficient and dynamic Diamaster WhisperCut Prismatic Rebate Cutterhead, Leitz offers the solution for fast, quiet and high-quality cutting of V-grooves in large quantities for precise mitre edges.

## YOUR BENEFITS

- Energy-efficient
- Significantly less noise
- Long lifetime
- Perfect cutting quality

## AT A GLANCE

- Multiple resharpenings
- Customized diameters
- Suitable for all standard machines and aggregates
- Available on short notice
- Diamond tipped

*Perfect mitre edges are particularly important for the cladding of facades.*
